INTAR

Tool Storage Solutions

About

Having a place for every tool is important to us. When tools are kept well, they are easy to find and can be used quickly.

The INTAR tool holders are designed and manufactured in Estonia. The designs that we develop are patent-protected.

***We offer TIME to our customers,
through workspace organization!***

All holders are made from high quality materials and designed to last from generation to generation. With our solutions, you no longer spend your precious time looking for tools, you have more free space on your desktop and your tools are better preserved than they are in INTAR holders.

Our product range is constantly expanding. When developing new products, we take into account customer needs and feedback. Feel free to contact us and share your thoughts with us.

Drill holders

INTAR DRILL HOLDERS

INTAR drill holder. The product is designed and manufactured in Estonia. Our products are made of high-quality steel and powder coated, so they will last for decades. The product can be mounted on a wall, under a shelf, or onto a perforated wall with a 38mm x 38mm pattern. On the sides of the product, 38x38mm perforations for installing accessories. Various cordless tools, such as cordless drills, nut drivers, heat guns, and screwdrivers, can be stored in this holder.

Angle grinder holders

INTAR ANGLE GRINDER HOLDERS

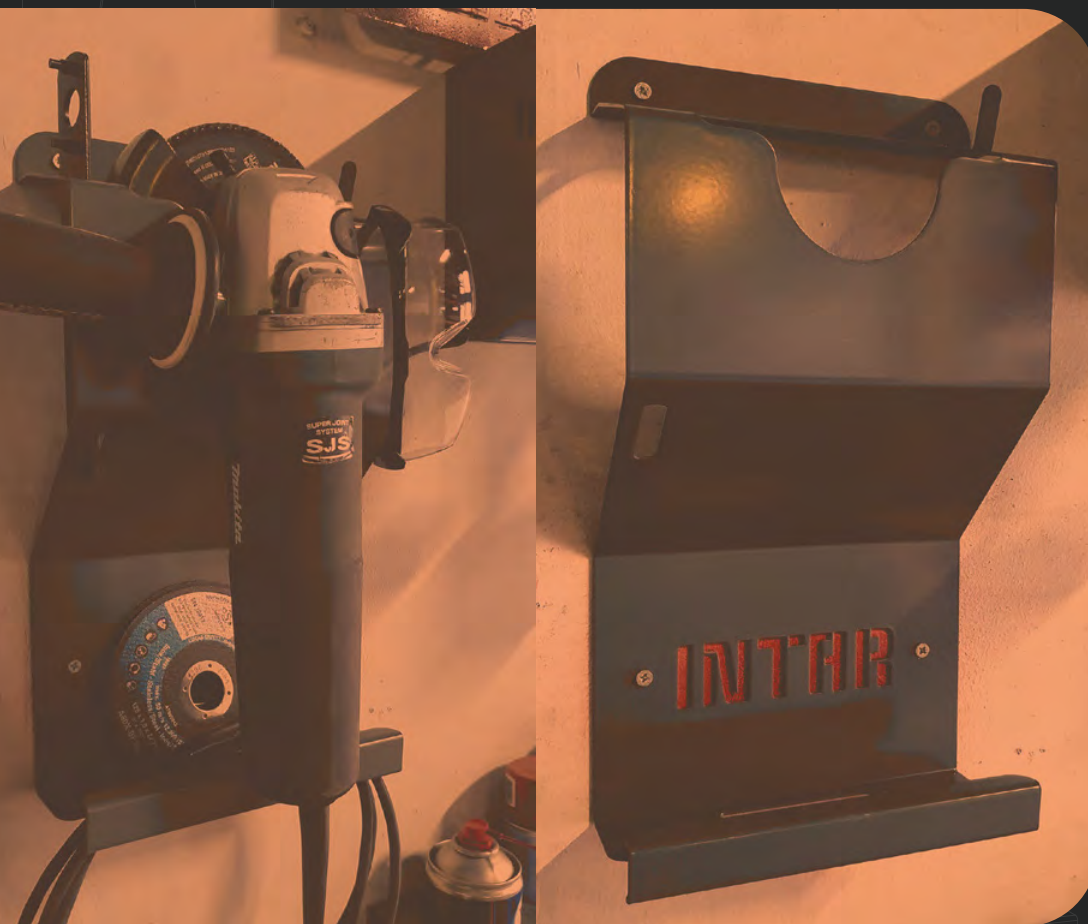

Angle Grinder Holder

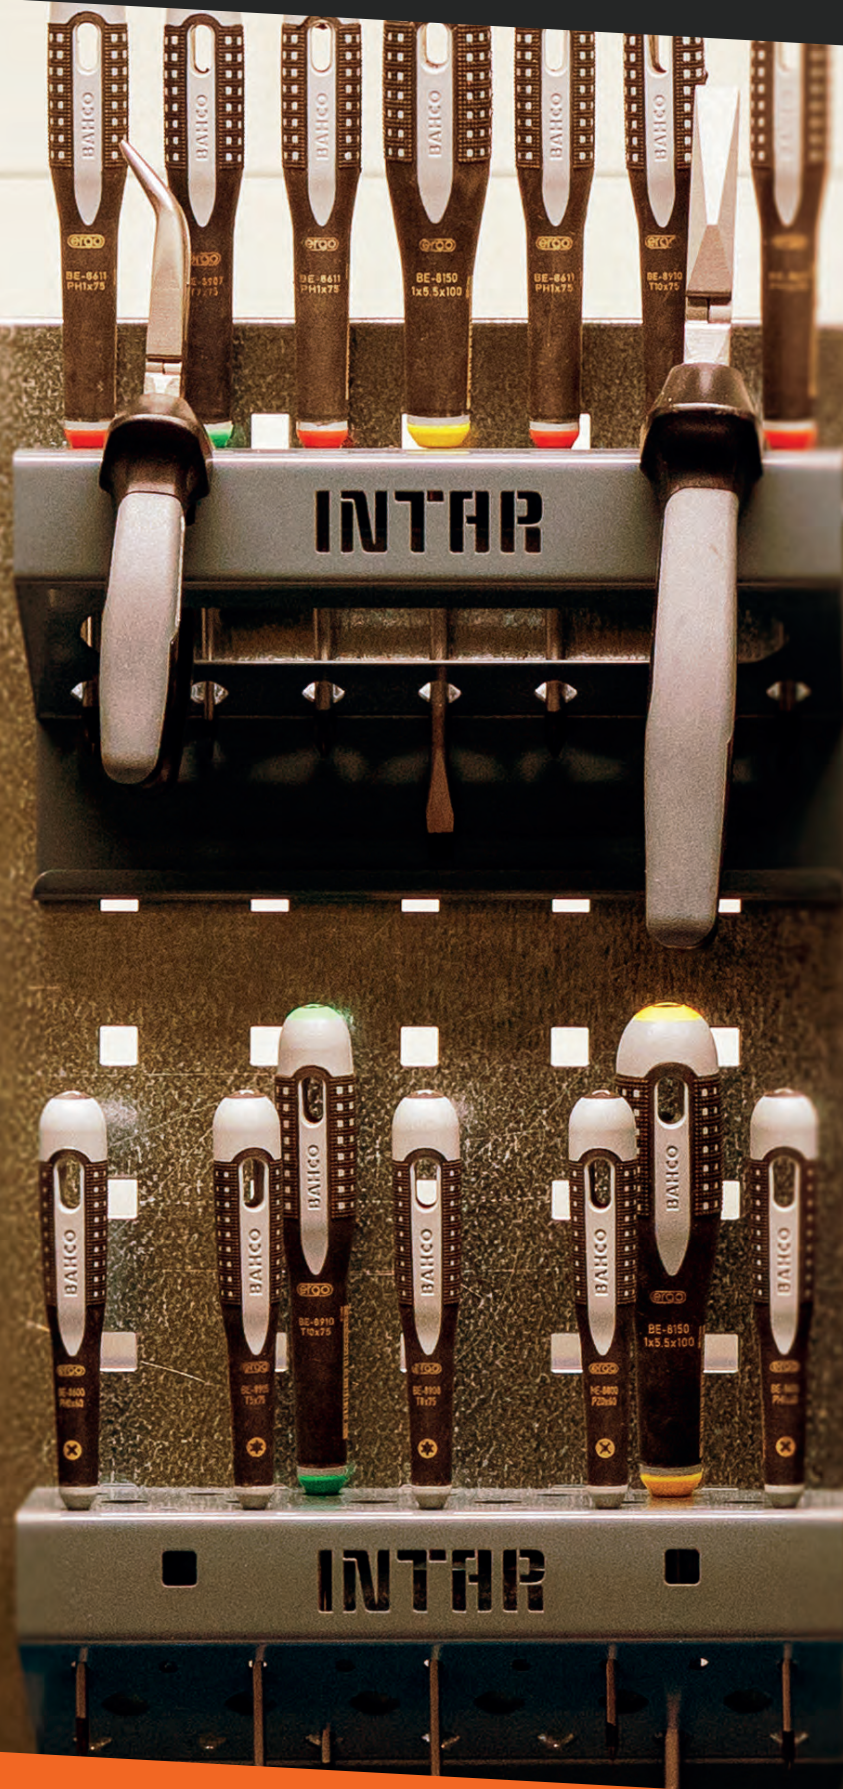

[Product page](#)

We designed this grinder holder to solve a problem that people have from time to time with the tools. Grinders are one of those tools that people like to put on the side or in a drawer, but it's hard to find them when you need them. This is a good way to keep your angle grinder at hand. Perfect for any job site, garage, or workshop, this organizer holds all your essential angle grinder parts and supplies: spare discs, safety glasses, a locking nut, a disc changing key. INTAR angle grinder holder is made of steel and powder coated. The holder is suitable for both battery and electric powered angle grinders.
