

**Konińska  
Fabryka  
Okien** Frankowska Wioletta

Konińska Fabryka Okien is one of the leading manufacturers of windows and exterior doors (PVC) in Poland. The company was established in 1995 and its commercial success is the result of constant care for the highest quality of offered products and services.

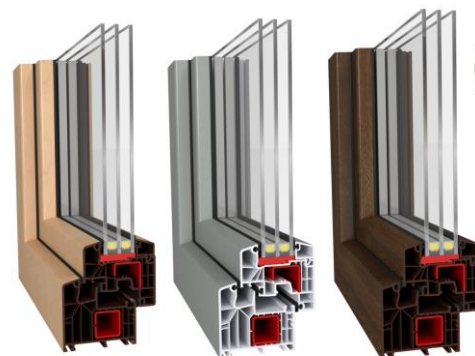

Our products are very popular on both domestic and foreign markets. For over 20 years we have been exporting plastic windows and doors (PVC) to almost every European countries: Germany, France, Belgium, Sweden, Switzerland. We are constantly expanding our activity into new foreign markets.

Our clients are individual investors, construction companies, developers and public utility institutions. Our modern solutions will provide comfort and convenience for years to come. We are characterized by qualified staff and the use of reliable technological solutions, such as ALUPLAST, GLASSOLUTIONS, ROTO, MASTER.

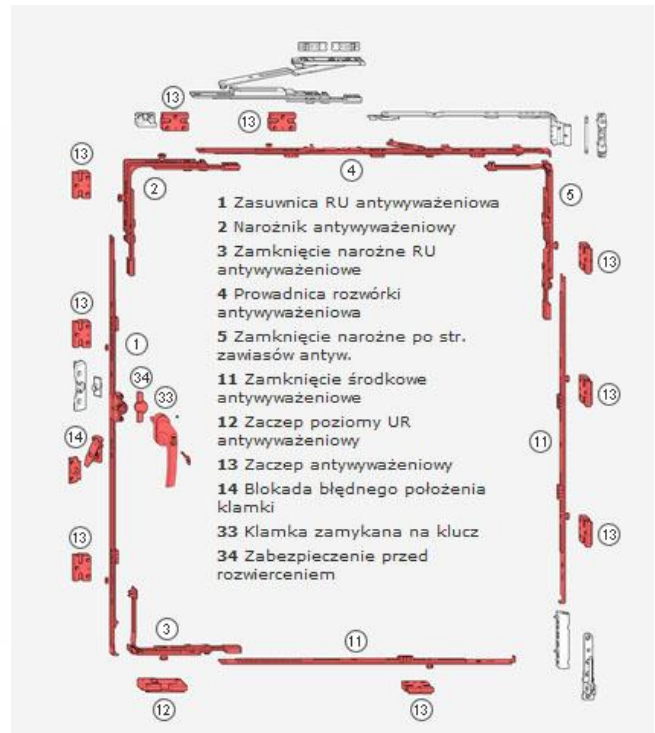

Our windows based on ALUPLAST profiles – one of the world's best manufacturers. This German manufacturer products are characterized by the highest quality standards and innovative solutions.

The ROTO fitting variant we use is intelligent solution combining safety and energy management.

Windows with double-glazed units provide comfort of use, silent, safety and extra economical benefits. Optimally selected parameters by Glassolutions Company guarantee to users the highest quality and expectations match.

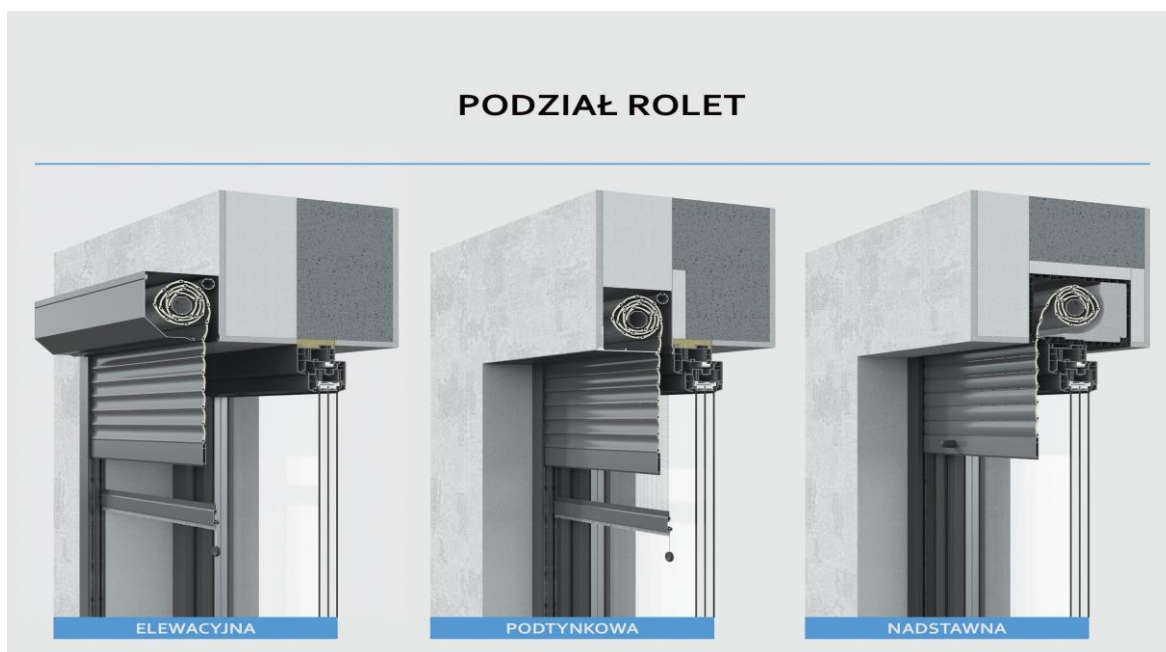

CLIMATOPFAMILY packages have warm SWISSPACER frame. The SWISSPACER frame is the heart of energy-efficient window. Warm spacers seal the edges of the double-glazed units and provide ideal thermal insulation.

Large window surface of Lift&Slidedoor HST 85 mm is perfect solution for comfortable connection interior with terrace and panoramic view. Unquestionable advantage of this type of terrace door is possibility of production of window with large dimensions.

In addition, our offer includes wide range of MASTER external roller blinds (Polish manufacturer). Roller shutters, elevation roller shutters and integrated concealed roller shutters as well.

We also offer interior and exterior window sills, mosquito nets and frame mosquito nets.

Sectional doors are the new position in our offer and also the most comfortable solution for a garage. Our garage doors are warm gates and the U-value they achieve is comparable to the U-value of multi-chamber windows used in energy-efficient buildings. High quality panels filled with polyurethane foam and sealing systems allow to achieve such a low U-value level.
