- **Project description**
- Why do you want to set up a PV system? (Power supply for the population, economy etc...)
- Where is the location (open space in the countryside - in the urban area/tissue area, aerial photos, cadastral plans, etc.)
- What dedication already exists (for the construction and operation of PV systems...)?
- Are there contracts with regional energy suppliers to feed in the energy produced from the PV systems?
- Does the necessary infrastructure for project implementation exist on there site (transformer station, substation, high-current lines, roads, etc.)?
- Do you want to sell or lease the location? (when leasing how long 25/50 years)?
- After the construction of the PV system/power plant, do you want to have an external operator or operate it yourself?
- Is there a contact person on site (example project manager/architects..)?
